

Smarter Tech for Doing Business Better.

Discover a modern PMS created by hospitality leaders, for hospitality leaders. Don't work harder, work smarter with our scalable system that can be tailored to fit your hotel, resort, or vacation rental's unique needs.

With hundreds of easy integrations plus sleek business intelligence designed to drive decision-making and seamless experiences, we're empowering you to breathe easier and work anywhere from the cloud.

Smart Features For Simplified Management:

CHANNEL MANAGER

Our integrated channel manager connects to all major OTAs and instantly updates rates and availability across multiple channels.

OPEN API

With hundreds of integrations and an open API, Solonis empowers you to build and connect with the tools that are important to your property.

EXTENSIVE ENTERPRISE REPORTING

Generate 150+ customizable reports, including a live snapshot of profitability and performance.

GUEST PORTAL

Contactless guest experience limits face-to-face interaction with mobile check-in, check-out, message center, and online payments.

REVENUE MANAGEMENT

Dynamic pricing tools including rate management and revenue management integrations empower you to oversee your property's revenue.

INTERNET BOOKING ENGINE

A connected internet booking engine encourages your guests to make real-time reservations on your website using our Solonis book now button.
